For Sale

Location: **Sydney**
Asking: **\$50,000**
Type: **Services-Other**

Printing Business Customer Base for Sale [UNDER CONTRACT]

[UNDER CONTRACT] This printing business is based in Sydney's Western Suburbs and offers a complete range of printed products. These include business cards, letterheads, stationery, invoice books, labels, brochures and more.

The business has a long history of trading that goes back to 1974. Since then, the business has developed a considerable database of repeat customers. These are broadly spread with the largest customer accounting for just 14 percent of turnover. As a result, the business is not particularly dependent on any particular customer.

Customers are from a wide variety of industries and include manufacturers, engineering businesses, wholesalers, distributors, service businesses, schools, government departments, printing businesses, trades businesses and retailers.

Sales are currently circa \$277,000 per year.

The owner of the business is in the process of selling his factory and will be retiring. As a result, he is now offering the customer base, phone number and email of the business for \$50,000 only. Two computers, customer job history and all artwork are included in the price.

Printing business customer bases now rarely come up for sale. Act quickly before this one is snapped up.
